## **SNI Companies Expands Technology Division**

*Staffing Agency Ventures into Healthcare IT*

**December 19, 2011** – SNI Technology, the leading national information technology division of SNI Companies, is pleased to announce the expansion of their HealthCare IT Division. This expansion will help meet the growing demand for high quality Healthcare IT professionals in the United States.

"We recognize the need for high powered recruiting resources in the healthcare IT industry and we have met that demand by adding an additional national recruiting center of excellence, right here in the United States," said Pete Langlois, Vice President and National Practice Director for SNI Technology. "SNI Technology's Healthcare IT Division is not tethered to any specific software. Our vendor neutral consulting team has deep experience with Epic, Cerner, McKesson, NextGen, Allscripts and many others. We are well-positioned to meet the healthcare IT needs of any organization."

SNI Technology's Healthcare IT Division is a nationwide provider of employment solutions including, direct hire placements, project and hourly based consultants.

### **About SNI Companies**
